Section 3:

Safeguarding children

To ensure the safety and well-being of children (0-18 years of age), our organization expects all staff members and volunteers to adhere to the following guidelines and behaviors:

Professional Boundaries

Maintain Professional Boundaries: Always maintain appropriate boundaries with children. Avoid behavior that could be misinterpreted as grooming or exploitative.

Respect Personal Space: Be mindful of a child's personal space. Avoid physical contact unless it is necessary and appropriate, such as to comfort a distressed child or in the course of providing medical assistance.

Communication

Appropriate Communication: Use language that is respectful and appropriate for the age and maturity level of the child. Avoid language that is demeaning, discriminatory, or sexually suggestive.

Privacy and Confidentiality: Respect the privacy and confidentiality of children. Share information about a child only with those who need to know and keep it within 100% for the Children.

Interaction

One-on-One Interactions: Avoid being alone with a child where possible. If one-on-one interaction is necessary, ensure it is observable and interruptible, such as leaving a door open or staying within sight of others.

Supervision: Ensure that children are supervised at all times during organizational activities. Avoid situations where children are left unattended.

Conduct

Prohibited Conduct: Do not engage in any form of physical, emotional, or sexual abuse, exploitation, or neglect. This includes hitting, inappropriate touching, making sexually suggestive comments, or any behavior that could be harmful to a child.

Positive Role Modeling: Serve as a positive role model for children by demonstrating appropriate and respectful behavior at all times.

Reporting Concerns

Immediate Reporting: Report any concerns or suspicions of abuse, exploitation, or neglect immediately to the Safeguarding Lead. Do not wait for proof or try to investigate the matter yourself. We encourage a culture of openness and transparency. Support and protect individuals who report concerns in good faith, ensuring they do not face retaliation or victimization.

Training and Awareness

Participate in Training: Attend any mandatory safeguarding training sessions provided by 100% for the Children. Stay informed about the latest safeguarding practices and policies.

Awareness: Be aware of the signs of abuse and neglect and know how to respond appropriately. Familiarize yourself with the organization's safeguarding procedures.

Digital Safety

Online Conduct: Maintain the same standards of behavior in online interactions as in face-to-face interactions. Avoid sharing personal contact details with children and ensure all digital communications are professional and transparent.

Use of Social Media: Do not accept or initiate friend requests with children on personal social media accounts. Use organizational accounts for any necessary communications.

Photos: Staff and volunteers are prohibited from taking photographs or videos of children during organizational activities without explicit permission from the organization. Images must portray children in a respectful and appropriate manner, ensuring they are fully clothed and not depicted in a very vulnerable or compromising situations.
